Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Sunday 27 Jun 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy mornings, sunny spells in the afternoon.

Today:
Widespread low cloud across the region, with fog over the Pennines until mid morning. Some light drizzle possible at first. Cloud will break up during the afternoon allowing some sunny spells, particularly towards the north. Maximum temperature 16 deg C (61 deg F).

Tonight:
A sunny evening for most, although some mist and fog patches likely to form quickly in the west. Widespread low cloud returning after midnight, with fog over the Pennines again. Minimum temperature 8 deg C (46 deg F).

Monday:
Isolated showers towards the south around dawn, quickly fading away to a bright day with scattered cloud. Dry for most, but can't rule out the odd shower in the evening. Maximum temperature 15 deg C (59 deg F).

Outlook for Tuesday to Thursday:
Generally cloudy throughout the outlook period with sunny spells mainly late afternoon. Outbreaks of light rain or drizzle possible most mornings, with a chance of heavy rain during Wednesday.
